SAFETY

1. The oven must be on a level surface.

2. The listening and transparent cover must be in the oven during cooking. Place the
   cover in the oven before heating.

3. Inexperienced use ofstrtotime dries may cause the listening to break.

4. Use only the specialized bag size when using pop-on.

5. The oven has several builtin safety switches to ensure that the power remains off when
   the door is open. Do not tamper with these switches.

6. Do not operate the microwave oven empty. Operating the oven with no food or liquid that
   may cause the listening to break.

7. Do not cook bacon directly on the listening. Excessive heating of the listening
   is extremely low in moisture can cause the listening to break.

8. Do not heat non-microwave-safe containers, such as syrup bottles.

9. Do not heat empty or near-empty containers and may cause physical injury.

10. Do not attempt to deep fry in your microwave oven.

11. Do not attempt to store non-microwave-safe food or water in your microwave oven.

12. Do not use this microwave oven for commercial purposes. This microwave oven is made
    for household use only.

13. To prevent delayed boiling of hot liquids and beverages or scalding yourself.

14. Use carefully when cooking food in the microwave oven as to avoid burning due to
    time. Let stand in the oven for a short time and stir again before removing the container.

15. Place in microwave to maintain the oven in a clean condition could lead to deformation that could
    adversely affect the life of the appliance and possibly result in a hazardous situation.

16. Excessive cooking
IMPORTANT SAFETY INSTRUCTIONS

WARNING

TO EXPOSE MICROWAVE ENERGY

1. Read and follow the special "PRECAUTIONS TO AVOID POSSIBLE EXPOSURE" statements on page 6.
2. Read all instructions before using the appliance.
3. As with most modern appliances, there is no visible evidence that microwave energy is being emitted from this appliance. To reduce the risk of fire in the oven cavity:
   a. Do not overcook food. Follow recipe and cooking instructions closely.
   b. Use care when removing food from the oven, as some foods may be hot.
   c. Do not operate the oven when empty.
   d. Do not store anything directly on top of the appliance when it is in operation.
   e. Do not use the oven cavity for storage purposes.
   f. Do not use water sprays or any liquid containing alcohol or ammonia to clean the appliance.

This oven and this instruction manual are designed for household use only.

1. This oven should not be placed in a kitchen cabinet, built-in cabinet, or wall cabinet.
2. Some products such as those with egg washes, may explode if left in the oven.
3. Remove all microwave-safe, metal, or heat-resistant cookware immediately after cooking.
4. When cleaning door and oven:
   a. Do not use a hard or abrasive cleaner on the oven interior.
   b. Do not use a plastic product on the oven interior.
5. Insist on the use of the oven only in accordance with the instructions provided in this manual.

1. Use the oven only for cooking.
2. Do not use the oven for storage purposes.
3. Remove all microwave-safe, metal, or heat-resistant cookware immediately after cooking.
4. Before cleaning the oven interior, unplug the oven from power source.
5. Do not cover the oven with any materials when it is in use.
6. Some products such as those with egg washes, may explode if left in the oven.
7. Use this appliance only for its intended use.
