## No more ropes to secure, arms to fold, bags to zip, fabric to roll by hand, or loose poles to misplace!

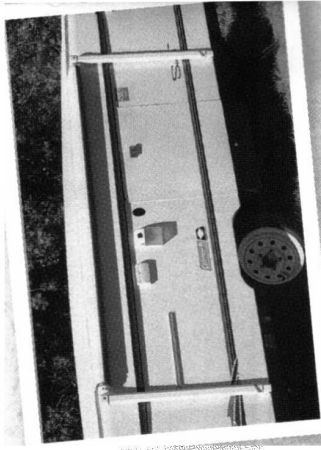

Are you fed up with all the hassles of setting up your stake & pole awning? For years, nearly every folding camping trailer has been equipped with a manual wind-up awning. But for some reason, people forgot that folks who own a folding camping trailer would appreciate the convenience of a spring loaded roll-up awning just like travel trailers and motorhome owners do. We forgot too, until we went on our last camping trip and decided we could make a compact version of our FIESTA-type awning modified for the specific application of a folding camping trailer. The new SUPER SPORT revolutionizes awnings for folding camping trailers. Now you can have the same easy set up as the big rigs! The SUPER SPORT comes with a full seven foot projection and is available in sizes from 7' to 12'. Two year limited warranty.

### 15. Folding Campers

*Fast, smooth, spring wound action -  
One person operation!*

## Great looks and security on the road!

This is the way the Super Sport arms lower and self store for travel.

## Easy set up!

**1 Raise the camper.** As it goes up, the arms automatically extend. When the cap is fully raised, lock the arms and the Super Sport is ready to roll out.

**2 Unlock the awning roller and extend the awning.** The Super Sport Roller Lock keeps the roller assembly from rotating during travel. Simply walk backward with the pull strap.

**3 Set the rafters to tension the canopy.** Easy as that, you're all set up!

**If you want the easiest set-up bag awning under the sun, get the Carefree CAMPOUT. But if you want the ultimate convenience for folding camping trailers, get the SUPER SPORT. You'll appreciate the extra convenience every single time you roll out or roll up your awning.**

### Buyer's Tip:

Add versatility to your new SUPER SPORT Awning. Get the SUPER SPORT Add-A-Room or Screen Room for the ultimate in folding camping trailer convenience and comfort! See page 18.
