

Matching Truck to Trailer Seminar

This seminar provides valuable information to dealerships/consumers on matching the appropriate truck to trailer.

At this seminar weight definitions and labels are major topics of discussion. Participants also get a clearer understanding of towing guides and equipment.

Attendees are taught what questions need to be answered to select proper equipment.

* RV Safety Packets

This comprehensive training program is designed to provide a standardized source of industry approved information for the safe operation of recreation vehicles.

This program incorporates nine RVing topics into an easy to use format. This is a non-bias program that contains procedures credited with saving many lives. Order on-line at www.rvsafety.com

* Fees apply

* RV Weighing

Sophisticated portable scales certified to government standards are utilized to determine **INDIVIDUAL WHEEL LOADING!**

A comprehensive report is provided to all weighing customers. This report details the SAFETY MARGINS on each component.

Armed with the weight analysis report the RV owner can adjust tire pressures to those recommended by the tire manufacturer and make weight adjustments to correct imbalances for optimum performance.

Check our RV Weighing schedule at <http://www.rvsafety.com>

* Consulting

RVSEF offers dealership training in the use of scales as well as all RVSEF Safety Programs in an effort to promote RV Safety.

RVSEF Services are available to Rallies, RV Dealers, Manufacturers and Consumers.

The ORGANIZATION

RVSEF is a non-profit, tax-exempt safety foundation, dedicated to providing professional and objective RV education with a focus on consumer safety and lifestyle enhancement.

RVSEF is a multi-faceted educational organization. We administer education programs, present safety seminars, provide consulting services to the RV Industry and conduct a weighing service for RV owners.

Funding of RVSEF comes from tax deductible contributions. Funds are used for development of educational resource materials.

The Educational Programs

* Life on Wheels - L.O.W.

Life on Wheels is a “college for RVers”. This program provides multi-day educational opportunities for RVers offered in five locations throughout the year. The conferences feature over 100 different classes on the RV lifestyle. Both beginning and advanced classes are offered.

* RV Driving Safety Program

This Driving Safety Program is designed to provide participants with helpful driving information and tips from seasoned operators, and is intended to help make the driving experience a safe one. With proper attention to the differences in vehicle size, height and weight, RVers will find it easy to hit the road in their recreation vehicle.

RVSEF DRIVING SAFETY PROGRAM

AN INTERACTIVE
SEMINAR FOR
ALL AGES

Topics include driving preparation, driving basics, weight safety, tire safety braking and towing.

Completion of this six hour program qualifies participants for discounts on RV insurance from some major insurance companies.

Fire & Life Safety Program

This program provides participants with the three Ps of Fire & Life Safety. It focuses on **Prevention, Plan of Action and Protection**. Attendees will learn causes of fire and how to protect their rigs. They will be taught how to create a plan of action for their own safety. The seminar includes a live hands-on fire demonstration.

The SEMINARS

Our seminars are enhanced with audio/visual equipment and handouts. All presenters are experienced RVers and industry professionals.

Weight Safety Seminar

The weight safety presentations focus on “speaking the language of weight”, providing RV owners with the knowledge required to assure that the vehicle is operated within all safety limitations. Seminar attendees will also receive information designed to assist them in purchasing a new RV which matches their personal needs.

Tire Safety Seminar

Maintenance and care of tires for optimum safety and durability is one emphasis of the tire safety presentations. Participants are provided valuable information to ensure well informed tire purchases for any vehicle. Proper air pressure is a major topic as well as reading and understanding manufacturers’ inflation guides.

Both the weight and tire seminars are designed to educate RV owners on the safety aspects of loading an RV and the potential hazards and expense of operating in excess of weight limitations
